Project Report Template

1 INTRODUCTION

1.1 Overview

Vehicle management is an application where a customer details are stored in order to choose cars, bikes and commercial vehicles for travel with in the city. The data which is stored here is further used to remind them if any offers are provided during the seasons and any updates regarding vehicles are sent to them in the form of messages and mails.

1.2 Purpose

I learn the salesforce project and improve the project knowledge

2 Problem Definition & Design Thinking
